

BUILD YOUR EXPOSURE MANAGEMENT PROGRAM WITH A TENABLE ONE DESIGN & ARCHITECTURE WORKSHOP

The Tenable One Design & Architecture Workshop from Tenable® Professional Services accelerates your platform adoption, minimizing time-to-value while maximizing overall value from your Tenable investment.

The Tenable One Exposure Management Platform presents a paradigm shift in securing your enterprise. Successful adoption of Tenable’s unified exposure management platform begins with gaining relevant insight into your organization’s business objectives, requirements and risk management processes.

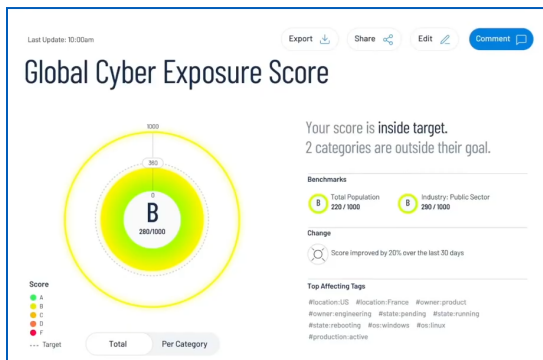

Our skilled consultants will guide you through our design methodology, ensuring these demands and needs are met and captured within an endorsed Tenable One design. Taking a strategic approach to preparing for adoption of our unified exposure management platform will place clients in the best position to take full advantage, allowing their business to thrive in a dynamic environment.

Our Experienced Professional Services Team

Tenable Professional Services implements products to solve your most pressing security problems, enabling your organization to respond to the dynamics of cyber risks within the shifting landscape of the modern attack surface.

We capitalize on our combined years of industry experience, tackling the most challenging requirements. We’ll help you realize the full value of your Tenable investment so you know your exposure management program is effective.

As the leading technology vendor in addressing cyber risk, we have developed complimentary services to our technologies. Our full lifecycle services begin with impactful consulting services to prepare your project, skilled implementation to accelerate adoption and expertise to enhance activation of your Tenable One Exposure Management Platform.

About Tenable

Tenable® is the Exposure Management company. Approximately 40,000 organizations around the globe rely on Tenable to understand and reduce cyber risk. As the creator of Nessus®, Tenable extended its expertise in vulnerabilities to deliver the world’s first platform to see and secure any digital asset on any computing platform. Tenable customers include approximately 60 percent of the Fortune 500, approximately 40 percent of the Global 2000, and large government agencies. Learn more at tenable.com.
