

TENABLE.IO EXPERT COURSE INSTRUCTOR-LED TRAINING

TENABLE.IO EXPERT COURSE

This fast-paced Tenable.io® Expert Course will build on previous instruction to advance your usage of Tenable's end-to-end, cloud-based vulnerability management solution in various enterprise IT environments. Hands-on lab exercises will provide opportunities for practical application of the concepts and skills.

OVERVIEW

Participants in this premium two-day course will learn advanced operational and administration skills. Content for the instructor-led course includes tuning Tenable.io for maximum performance, using the Tenable.io API with pyTenable, assessing container and web app security, and importing Tenable.io data into Tenable Lumin for Cyber Exposure risk analysis.

AUDIENCE

This course is suited for practitioners with 2-3 years of experience using Tenable.io, who want to expand their knowledge of best practices and maximize the solution's capabilities. It is recommended for those seeking to obtain Tenable.io Expert Certification.

PREREQUISITES

Tenable highly recommends that all participants complete the instructor-led [Tenable.io Specialist Course](#) from [Tenable University](#) before attending this course.
