

TENABLE.SC EXPERT COURSE INSTRUCTOR-LED TRAINING

TENABLE.SC EXPERT COURSE

This fast-paced Tenable.sc™ Expert Course will build on previous instruction to advance your usage of Tenable's end-to-end vulnerability management solution in various on-premises enterprise IT environments. Hands-on lab exercises will provide opportunities for practical application of the concepts and skills.

OVERVIEW

Participants in this premium two-day course will learn advanced operational and administration skills. Content for the instructor-led course includes deploying Tenable.sc in large and extremely large-scale environments, tuning Tenable.sc for maximum performance, using the Tenable.sc API with pyTenable, and importing Tenable.sc data into Tenable Lumin for Cyber Exposure risk analysis.

AUDIENCE

This course is suited for practitioners with 2-3 years of experience using Tenable.sc, who want to expand their knowledge of best practices and maximize the solution's capabilities. It is recommended for those seeking to obtain Tenable.sc Expert Certification.

PREREQUISITES

Tenable highly recommends that all participants complete the instructor-led [Tenable.sc Specialist Course](#) from [Tenable University](#) before attending this course. Some knowledge and experience with Python is also recommended.

COURSE SYLLABUS

- | | |
|--|---|
| 1. Class Introduction | 9. Extremely Large Deployments |
| 2. Lab Environment | 10. Ongoing Management of Extremely Large Deployments |
| 3. Introduction to Large-Scale Deployment | 11. Introduction to the API |
| 4. Asset Identification | 12. Using the API |
| 5. Asset Responsibility | 13. The Tenable Lumin Connector |
| 6. Troubleshooting Large-Scale Deployments | 14. Introduction to Tenable Lumin |
| 7. Performance Tuning | 15. Advanced Use of Tenable Lumin |
| 8. Ongoing Operations | 16. Course Evaluation |
| | 17. Course Summary |

KEY BENEFITS

- **Hands-on Lab Environment**
Gain practical, real-world experience with Tenable® products in realistic scenarios
- **Flexible Scheduling**
Live instructors teach courses remotely from multiple time zones to meet your availability requirements
- **Knowledge You Can Use**
Gain deeper knowledge so you can better understand your risk and prioritize remediation of security issues in large, complex environments
- **Prepare for Certification**
Excellent preparation for those seeking to obtain Tenable.sc Expert Certification

This course does not include Technical Support assistance or troubleshooting of specific customer concerns.
