

# TENABLE.SC SPECIALIST CERTIFICATION EXAM

## TENABLE.SC SPECIALIST CERTIFICATION

Tenable.sc<sup>™</sup> is a comprehensive vulnerability analysis solution that provides complete visibility into the security posture of your distributed and complex IT infrastructure. The Tenable.sc Specialist Certification is a two-part exam, written and practical, that validates your ability to plan, deploy, verify and troubleshoot the platform.

The exam is taken online in a proctored environment. The written exam must first be completed before you are allowed to take the practical exam. Upon successful completion of both exams, a Tenable.sc Specialist Certification will be provided in electronic format.

## WRITTEN EXAM

Candidates are required to complete a sixty (60) question exam. The exam bank consists of both multiple-choice and true/false questions. We suggest candidates read the questions carefully before answering.

Two (2) hours are allocated for completion, and a minimum score of 80% is required to pass.

# PRACTICAL EXAM

Candidates are required to complete a set of activities simulating a real-world environment. The practical exam can include up to thirty (30) tasks to complete, and each is scored equally.

Four (4) hours are allocated for completion, and a minimum score of 80% is required to pass.

# WHAT YOU WILL BE TESTED ON

- 1. Technology Overview
- 2. Architecture and Design
- 3. Installation and Deployment
- 4. User Management
- 5. Vulnerability Assessment
- 6. Compliance Assessment
- 7. Vulnerability and Compliance Analysis
- 8. Asset Lists
- 9. Dashboards, Reports and Alerts
- 10. Assurance Report Cards
